Dear Fellow American:

As a member of the Florida Coalition, or a supporter, we are pleased to send you a copy of our new brochure. We ask you to use this for information when someone asks about the Coalition, and also, use it to help us get new members - good members - people really interested, as you are, in the fight to keep our Republic strong.

Since assuming Directorship of the Coalition on July 1st, we have been busy setting up extensive files for easy reference; we are currently working on individual cross-indexed name files; we are gathering material from throughout the state so that we can keep several state and federal agencies informed, and also, various key publications and organizations informed; we are organizing study groups and obtaining speakers for future meetings; we are going to promote Americanism whenever and wherever we can; we shall continue our bi-monthly bulletins; and we shall work to keep you informed of what is going on and what we can do about it.

We shall not become involved in political, racial or religious issues as such, but will keep you informed of individuals or organizations or movements, that use these issues, as a means of promoting communism, socialism and/or one-worldism and shall also, keep you informed of individuals or organizations who have records of affiliation with front groups. We will not spread any "hate" propaganda, nor will we spread rumor. Our facts will be well documented.

We need your help in many ways. Send us news clippings and editorials from your local paper. Send us copies of programs or brochures or literature that you may obtain regarding front movements. We sometimes need as many as 10 copies of an item. Our budget cannot stand cost of buying papers every day from every city. You can be a tremendous help by sending us clippings, editorials, letters to editor, photos and anything of interest regarding our program.

I hope eventually to meet many of you personally or to write you from time to time.

We ask you to visit our office when in Tampa and say hello. We keep a supply of free literature on hand so that you may make use of it in helping us alert the public of what is happening.

Please give us your support and we will get the job done!

Yours very truly,

"SMEAR-FEAR"

One of the little-understood activities of the Reds is their vicious attempt to destroy all endeavors to expose the Communist Conspiracy. This has shown surprising strength. Carefully organized "smear" campaigns are set in motion in order to intimidate those who are effective enemies of the MISTAKEN.

Research is undertaken into the past life of every intended victim in order to find some weak spot that can be made the means of discrediting or even blackmailing him. If nothing can be found that is decisive, a great, organized hue and cry will be expressed about some minor points blown up to large proportions and the patriot thus labeled "controversial". So much mock horror is voiced and such a distorted picture is presented, that the public is frequently confused. Left-wing radio commentators, teachers, reporters, ministers and editors take up the cry until it is heard far and wide.

Attacks have been made against every person or organization that has been effective in the fight. In fact, as Mr. J. Edgar Hoover recently pointed out in one of his speeches, the measure of one's effectiveness in this struggle is directly proportional to the smears and outcries against him by the Reds.

Campaigns of "smear" by whispers, innuendoes and direct or indirect charges have been hurled against Hon. Martin Dies, Hon. Harold Velde, Hon. Francis Walter, Senator Jenner, J. Edgar Hoover, the F.B.I., the House Committee on Un-American Activities, the Senate Internal Security Sub-committee and many others. One of the chief instruments through which the Reds operate to discredit and destroy, is the Emergency Civil Liberties Committee, identified in 1958 as a Communist front by the House Committee on Un-American Activities.

It is important to emphasize the important work performed under the most difficult circumstances by the House Committee on Un-American Activities and the Senate Internal Security Sub-committee. As Hon. Gordon Scherer recently pointed out, the committee members are falsely accused, by Communists and their stooges, of being "...character assassins, witch hunters and destroyers of civil liberties...." They "...have been smeared, vilified and insulted from coast to coast...in public, in private, in the press and over the air." F.B.I. Director, J. Edgar Hoover, was undoubtedly trying to clear the air when he made the following statement to Hon. Francis Walters, Chairman of the House Committee on Un-American Activities: "Your committee's role in safeguarding our freedoms is well known to every patriotic citizen, and real Americans are not going to be fooled or misled by efforts to discredit your vital task. To Representative Jackson, of the committee, Mr. Hoover wrote: "I respect the fact that Congressman Walter, you and other members of your committee have rendered outstanding service in exposing Communist activities." Again, he stated in 1953, "The Congress especially has performed a magnificent job in spotlighting Communist treachery...."

Under the skillful and dedicated direction of Mr. J. Edgar Hoover, the F.B.I. has been built into an efficient protective force against the criminal, Communist Conspiracy. The integrity of the F.B.I. and its agents is a natural result of the dedicated character, constitutional Americanism and hard work of its distinguished Director.

62-106947-X2
The overwhelming majority of the American people whole-heartedly trust and enthusiastically endorse the Federal Bureau of Investigation. We know that this organization is our friend and the mortal enemy of those who would destroy us. We know that it is organized

according to the highest principles of justice and operates completely in accord with our great American traditions. Only those who have something to hide, who plan or have been guilty of some crime against the people of our country, hate and fear the F.B.I. Anyone who maliciously attacks this splendid organization thereby opens himself and his patriotism to question by his fellow citizens. Similar attacks upon the House Committee on Un-American Activities, the Senate Internal Security Sub-committee or other dedicated American organizations or patriots, stimulate a similar raising of eyebrows. These organizations and patriots have shown themselves throughout the years to be loyal to our American Constitution. The same cannot be said of many of those who attack them.

The F.B.I. agents are very carefully screened. They must be proved beyond any shadow of a doubt to be loyal American citizens. They are picked for their unimpeachable character, intelligence, ideals and physical fitness.

The agents go through many months of special training for their important work. As a result, they know exactly how to tackle efficiently, in the American way, each job presented to them. They are scrupulously careful to obey the laws themselves and to be fair in all their dealings with the public. They constitute the very flower of American manhood at its best.

The F.B.I. is an American organization, functioning in accord with our laws for the protection of our lives, our responsible freedom and our Constitutional Republic. While it must operate quietly, so as not to tip its hand to our enemies, it is not a secret police and has none of the defects of totalitarian organizations such as exist in Russia. It is an important part of America's answer to the internal Communist threat.

The American people are profoundly proud of their F.B.I. No Communist propaganda will be able to fool our citizens into feeling otherwise. Enemies of the F.B.I. indelibly stamp themselves as enemies of our country in the minds of our people.

Particularly in the southeastern section of Florida, where the Communists are strongest, many patriots have been battered and bruised by Red smear tactics. As a result, a few have been badly frightened and have withdrawn from the combat or have become so cautious that they have become ineffective.

Caution, of course, is an excellent thing. There is no need and indeed it is foolhardy, to expose oneself to the enemy "fire" unnecessarily. However, if caution becomes so great as to paralyze effective action, it can be very harmful to our cause. Some degree of assertiveness is essential. It is highly important to take calculated, necessary risks when conditions warrant. Like the tortoise, in order to really make forward progress, it is necessary at the right times and for appropriate issues, to be willing to "stick your neck out". Patriots must replace any unconscious tendency to withdraw with a "will to conquer".

"Smear-fear" is natural. Few people like to have unpleasant things said about them, or to lose business. However, patriots must remember this: smears are easier to bear than bullets that may snuff out the lives of over 50,000,000 Americans who, according to Dr. Frederick C. Schwarz, are scheduled to be "liquidated" if, or when, the Reds take over. If you are worried about the enemy "spotting" you and adding your name to the list, forget it. The Communist Conspiracy has undoubtedly had all our names for a long time and no act of withdrawal, appeasement, softness or even collaboration will remove it from the roll. In fact, history has shown that those who have helped the Communists to take over a country, are the first to be "liquidated". The Reds know that even they, cannot trust a man who would betray his own country. Practically all

substantial Americans would be next on the list, whether they fought the Communists or not.

In case of a take-over, there would, of course, be no more "business" and money would be worthless:- dead men have no need for money or for business. Nevertheless, we need not let this happen. Of the two alternatives, fight or defeat, let us look facts in the face and see that with this enemy, there is no third possibility. We are in a deadly war with a thoroughly evil, unscrupulous adversary who will give no quarter. We are not in a playful, wrist slapping campaign.

Either we aid, cooperate with and fight at the side of other good patriots NOW, or it will very shortly be too late. Either we hang together or we will surely hang separately. Whether we show the courage necessary to oppose actively the enemies of freedom, in spite of the "slings and arrows of outrageous..." "smears" he throws against us and our fellow patriots, or we shall sink into eternal night. A "smear" against a patriot by the Communists or their stooges should be considered as a "purple heart", a badge of honor, not to be courted but to be worn proudly when received in the line of conscientiously performed duty. It shows that the enemy considers this man or woman to be a worthy foe.

WHAT TO DO:

1. Write letters to your Congressmen and Senators strongly supporting Mr. J. Edgar Hoover Hon. Francis Walter, the F.B.I., the House Committee on Un-American Activities and the Senate Internal Security Sub-committee.
2. Write letters-to-the-editor of magazines supporting these same persons and organizations.
3. Be willing to support actively good patriots who have been falsely attacked. You may need help yourself sometime.
4. Be loyal in word and deed to other good Americans.
5. Write letters to your Congressmen and Senators (copies to our President) urging them to: 1. Remove the effects of the Steve Nelson Case so that states can again pass anti-sedition laws, (2) Remove the effects of the Yates Case so that authorities will not have to wait until subversives are actually caught in the act of overthrowing our government before they can be apprehended, (3) Help increase the size of our conventional Armed Forces, (4) Work for a resumption of nuclear testing by our Government, (5) Insist upon a resumption of high-altitude flights for intelligence purposes over Russia.

On this occasion, [redacted] explained the Florida Coalition of Patriotic Societies was the banding together of various patriotic organizations with the view in mind of fighting the Communist menace.

The present [redacted] of the Florida Coalition of Patriotic Societies is [redacted] of St. Petersburg, Fla., who has been [redacted] of Americanism Committee of the Florida American Legion. The indices of the Tampa Office reflect nothing derogatory.

Enclosed herewith is an article from the Tampa Times, Tampa, Fla., under date of 11/15/60, which reflects the Florida Coalition of Patriotic Societies has asked for a ban on four major films on the grounds that script writers have Communist leanings.

Concerning further background of [redacted], the Bureau's attention is called to Tampa letter to Director dated 8/31/60 in matter entitled "FLORIDA NETWORK, INFORMATION CONCERNING."

Group Asks Ban On Films

Ban of four major films is being sought by the Florida Coalition of Patriotic Societies of Tampa on the grounds that script writers have Communist leanings.

The four films which the society seeks to ban from showing in Florida are "Spartacus," "Exodus," "Chance Meeting," and "Inherit the Wind."

The film "Inherit the Wind" is due to open this week in Tampa, and the society will ask theatergoers to boycott in cases where the local theaters do not cooperate.

A special bulletin of the Florida Coalition of Patriotic Societies states that the ban is not asked on the basis of any material in the four films, but rather on the fact that Dalton Trumbo, script writer for "Spartacus" and "Exodus," was subpoenaed before the House Committee on un-American Affairs and was cited for contempt of Congress, for which he served time in prison.

Another writer, Nedrick Young, who was also subpoenaed, refused to testify regarding his identification with communism. Young was script writer for "Inherit the Wind." Complaint against the film "Chance Meeting" was made against three writers, Ben Barzman, Millard Lampell and Joseph Losey, all said to have connections with the Communist Party.

The bulletin publishes resolutions taken by the American Legion at its national convention in Miami in October, and asks support of these resolutions from all local posts.

The Miami action condemns the showing of these films and all members of the industry connected with the production or showing on the basis that although no Communist propaganda may be present in the pictures, revenues from their showing goes into Red coffers from money earned by party members.

Robert A. Francis is director of the organization.

Mr. J. Edgar Hoover, Director
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Hoover:

As [redacted] of this organization and also as [redacted] of American Legion Committee on UnAmerican Activities, I have been concerned with the step up recently in attacks on law agencies and the FBI and yourself. Most people do not fully understand the functions of the FBI, especially in the subversive field.

Most of bureau speakers talk of crime in general but do not touch hardly at all on the subversive section. People in this area of Florida are concerned with the Cuba situation and activities in Tampa-Miami area.

With this in mind, I expect to write some short articles soon to reach up to 60,000 Floridians, taking items from the FBI booklet COOPERATION-BACKBONE OF EFFECTIVE LAW ENFORCEMENT.

Also, we wonder if it would be possible to get a large supply of this booklet for distribution to Legion Commanders and key chairman or heads of other organizations around the state to help offset some of the campaign going on to undermine the bureau. We could use any amount from 1 to 1000. We could also use any amount of material you may have regarding subversion.

Presently we are showing the OPERATION ABOLITION film with over 40 groups in this area already viewing it. We usually give out some of your speeches or reports to help them understand the youth problem.

Best wishes you have from all of us and good to know you will be in office under the new administration.

Respectfully yours,

Re Jacksonville letter 12/7/61 requesting the Bureau furnish any information available concerning captioned organization to the Bureau's Florida offices.

This is to advise that the Bureau has never investigated captioned organization whose address is listed as P.O. Box 10523, Tampa 9, Florida. The organization reportedly was organized for the purpose of coordinating and directing activities to combat communism and the Communist Party influence through the issuance of bulletins, organizing study groups and arranging lectures. Reportedly, the aim of this group is to acquaint the public with the activities of various subversive organizations. Upon request, various officials of the organization have in the past been furnished with copies of various pamphlets issued by the Bureau on various facets of communism for distribution by the organization. At its convention at West Palm Beach, Florida, on 4/29/61 the organization passed a resolution commending the Bureau and the Director, the House Committee on Un-American Activities and its chairman and the Senate Internal Security Subcommittee and its chairman for their activities in alerting the general public to the dangers of the communist conspiracy not only to the United States but the entire world.

Dear [REDACTED]

Your name has been given us as one who is dedicated to the service of God and Country during this time of great national crisis. We would like very much to have you join the Florida Coalition of Patriotic Societies, which was organized to help promote our Free Enterprise System and to aid in preserving our Great Republic from the powerful forces bent to destroy us.

We issue semi-monthly bulletins and send out documented items acquired through the House Un-American Activities Committee, the United States Senate Sub-committee on the Judiciary and the Federal Bureau of Investigation to school officials, state legislators and others in key positions.

Your association with us is earnestly requested. A check for five dollars or more will place your name among distinguished patriots participating in this struggle. We hope you can afford to make a larger contribution in addition to the minimum fee so that our efforts can become increasingly more effective.

Mail check to "Florida Coalition", P. O. Box 10523, Tampa 9, Florida. You will receive a membership card and regular bulletins.

Yours very truly,

Dear General Lowry:

I have read with much interest of your plans and your activity in the bringing together of the various patriotic groups in Florida in order to promote a more dynamic force to encourage and advance love of country and its traditions and institutions in the hearts and minds of our citizenry. There could be no more noble an undertaking.

For if our Republic is to be preserved from the forces aimed at its destruction, there must be a militant revival of that patriotic fervor which so animated our forefathers in the design of our institutions. Only thereby can we preserve to our posterity the blessings of our own heritage of liberty and freedom.

Most cordially,

Is the National Council of Churches good?

Does the NAACP promote communism?

Should the U.S.A. remain in the U.N.?

[] during the "service" spoke briefly on the history of communism from 1848, stressing the fact that KARL MARX was the son of a rabbi. LENIN was one-half Jew, married to a Jew, and so forth. [] "pulled no punches" in his anti-Jewish remarks.

Submitted for the information of the Bureau inasmuch as [] is disseminating Bureau publications.

J. Edgar Hoover,
Director of the F. B. I.,

Dear Sir: I have just been notified, via gift-card, that I am being presented with a year's subscription (\$5.00) to the Bulletin of the Florida Coalition of Patriotic Societies. This is the first that I have heard of the F. C. P. S., and I have no idea as to where my brother (whose name appeared on the card, as the donor) became acquainted with its activities.

Bulletin 89 and this article "Shall it be law or Tyranny" accompanied the gift-card. Since the article does not bear your signature, I am a bit skeptical as to whether you ever intended it to be used to further the cause of the "Coalition." Am I right?

On page 3 of this bulletin, the President of the U. S. A. is referred to in a disparaging manner as "the Monarch," and "the New Frontier Tyke." The thought occurs to me that the F. C. P. S. could be a fancy name for the Ku Klux Klan--operating under new tactics.

Years ago, I read a horrible hand-written paper which was purported to be a true statement of the K. C. as to their intentions of destroying, by torture, all women of child-bearing age who were not Catholic. Later, I learned that this was merely propaganda, circulated by an over-ambitious unit of the K-K-K., and that there was not a word of truth in it.

To me, this Bulletin smacks of the same dirty propaganda directed, this time, at President Kennedy. I am a Republican and did not vote for Mr. Kennedy but, right or wrong, he is our president, and I think he should be respected as such.

I cannot thank my brother for subjecting me to this kind of literature unless it is the truth. To my mind, he has been taken in by a giant money-making scheme that is using patriots to undermine the government or, at least, to get John F. Kennedy out of the White House.

If this Bulletin is what I suspect--an instrument of propaganda--I want no part of it. How do I get rid of it?

If I am wrong, and the F.C.P.S. is a bona fide organization which should be supported, and the Bulletin has your sanction as truth, then I shall welcome it into my home and read it avidly. Is this true?

Please answer by return mail so I shall know whether to thank my brother for the Christmas gift--or to notify him that he has been the victim of a hoax. I enclose self-addressed stamped envelope for your reply.

PEARL HARBOR - SUNDAY, DECEMBER 7, 1941

Pearl Harbor
liquid, banked-with-flowers name
exquisite gem from island lore
how strange to link in Martian fame
your name in bold accounts of war.

Pearl Harbor
thickspun leis fell that morn
in steelcrushed masses, broken down
their very petals from them torn
none left to deck the Victor's crown.

Pearl Harbor
Sunday too when Eastern seas
licked high your sands with tongues of blue
thin crested waves, there came these
manmade volleys, hurling death to you.

Pearl Harbor
newsboys rasped it out in calls
the name becomes a battle den
where rain from metal war cloud falls
a siege thrust unto men by men.

Pearl Harbor
Harbor of Death it might be named
where ships and mortals fell alike
beneath the vengeance wild, untamed
when sure and fell there came the strike.

Pearl Harbor
Pearl Harbor's lesson sheds its light
the deadly winds of war still blow.
AMERICANS, STAND GUARD TONIGHT
against a stealthy Kremlin foe!

Twenty-one years ago our Republic was the victim of an anguishing sneak attack, planned by the ENEMY WITHOUT and known to the ENEMY WITHIN.

Please give careful consideration to the message on the next page. This is an actual letter just received from a person in Cuba. It bears an important warning.

November 17, 1962

Dear

Your letter came O. K. I don't know how to give you our thanks. We'll do it when the time comes. Mother says she sends you a kiss on the tip of your nose. In six months we won't have to worry.

The excitement of the first days is over. Militiamen are going back to work. They were all out in the trenches. Cars from particular people were gathered to serve as transport or ambulances ("borrowed"). Only a few cars were left to help the neighborhood in case of "aggression." Militia women were in the play also. The "defense committee" (popular secret police) guards, together with women militians, the streets of towns and cities (at night). All guards were doubled, some had weapons, others - empty hands. Canned foods are still rationed. Lard and oil is not found in the whole of Cuba. People who have hogs can sell them easily. People are crazy looking for lard. Gasoline was only for military purposes. Civil traffic was paralyzed, only busses travelled. People were sure the invasion would come, and many were already celebrating. Later alcoholic drinks were not sold. People who weren't "in the clear" were feeling the "nearby fire." We all were calm and expectant, listening to outside radio reports.

Even God was against them. Since the alert, it rained almost every night and day, and a cold wind blowed. They felt the cold and the hunger in their very bones (one of "them" told me). I feel sorry for some who I know, and I'm sure aren't communists but have to pretend. Many workers, though they weren't military had to wear uniforms "willingly." Also "willingly" they will sign the five points Fidel asked for (all working people have to).

(Nik pretends to be out, but I KNOW he left his "baggage" behind. Please tell Uncle to be sure to come and get it.)

The seeds you sent me are planted and growing. Tomatoes and lettuce are growing fine. We'll have a winter garden.

American planes flew low over us. Many people when they heard the noise, went out but could only see the trail. They flew over Presidio, Siguaneya and other places (Mikoyan was at Siguaneya some days ago, it is rumored). Two accidents took place when inexperienced boys were putting mines around the beaches and two of them exploded. Several boys were injured, and two lost arms and legs.

If you can avoid using your name on envelopes, please do. It will be safer if you didn't. (You can use a false name.)

Thank you for everything. Best regards from all of us to you and yours.

Love

P. S. I wish you could see the type of people these Russians are. They (when they can, for they are not allowed to) drink 90% alcohol - for other beverages are TOO SOFT for them!

MISSILES ARE STILL IN CUBA
ACCORDING TO RELIABLE SOURCES

The message contained in the foregoing letter from one on the scene has been voiced over and over by reliable persons who KNOW the so-called removal of missiles from Cuba is a fantastic farce.

On November 2nd Raphael Garcia Novarro, Cuban Delegate to the United Nations from 1955 to 1959, made a thorough statement of the secret storing of missiles in Cuba. This Cuban exile, now living in South Florida, gave specific locations of caves and underground tunnels where such missiles were placed when the reds pretended to remove them from the island. His information came from underground workers presently in Cuba, and in full possession of the facts.

Since these pieces of information have been given to the White House; since the White House has been entreated to know the truth of the situation, there remains only one answer to the inaction. The strong stand against communism at election time by the New Frontier Tyke was as phoney as a three dollar bill.

KENNEDY EVADES IMPORTANT QUESTION AT NEWS CONFERENCE

At the November 20th news conference, a woman reporter repeatedly asked for the floor. She was rudely ignored by the Monarch some eight or nine times, and then she forged right in and asked her question:

"Mr. President, isn't it true that we are not allowed to take action in the Cuban situation because our hands are tied by the United Nations?"

The Monarch dodged. The Monarch declined to answer. He said he couldn't really give an answer unless the question was put hypothetically! Hypothetically!!! What could be more answerable than a real question about a real crisis?

WHY DID HE EVADE THIS QUESTION?

The facts are that the woman had asked something which touched the Achilles heel. Under the United Nations we are tied hand and foot, as we were in our Korean fiasco, by communist control of the most strategic officer of the United Nations.

The seventh consecutive communist has recently been appointed to the NUMBER TWO position of the United Nations: the Office of Secretary of Political and Security Council Affairs. Eugene Kisolev, the present communist in this position, succeeds:

Arkady Sobole
Constantin E. Zinchenko
Ilya S. Tchernychev
Dragoslav Protitch
Anatoly Dobrynin
Georgy Petrovitch Arkadev

This office has control over all U. N. military, political, nuclear and disarmament questions.

The arrangement, under which a communist has always held this most vital position in the United Nations, is the result of a secret agreement made between Molotov and Stettinius (when Alger Hiss was his principal advisor) in London in 1945.

62-106947-4

ENCLOSURE

This entire arrangement was revealed in a book written by the second United Nations Secretary-General, Trygve Lie, In The Cause of Peace, pp. 45-46.

Therefore, because of the audacity of the few and the apathy of the many, America sits impotently by while a red-controlled United Nations calls the shots to suit the Kremlin.

How long will our people allow this to happen?

Will it require a great national tragedy to bring us to action?

THERE'S A McCLOY IN THE WOODPILE

The White House advisor on Cuba, John J. McCloy, has been hard at work at the U.N. with the Soviet strategist, Kuznetsov. In his work he hasn't seen fit to go to Cuba, but has remained loyally visiting with this one and that in the giant fish bowl.

In a recent article in the Palm Beach Post-Times by Jeanne Perry, McCloy's interesting background is mentioned. According to this article, McCloy was a member from 1925 to 1940 of the law firm of Cravath, DeGersdorff, Swaine & Wood, which helped to manipulate the United States recognition of Soviet Russia.

Also when McCloy served as Assistant Secretary of War, an order was approved which permitted communists to be officers in the United States Army. His strong support of Robert Oppenheimer was also noted long after Oppenheimer was denied security clearance.

Doesn't McCloy sound like just the man to advise JFK on Cuba?

No wonder Our Leader has committed us to the preservation of the Castro regime!

While Congress is adjourned, we hope that readers will contact Florida Senators and Representatives to protest this new Yalta sell-out. Do it today!

Captioned organization has received Bureau literature in bulk quantities in the past. Recently an individual corresponded with the Bureau and said she had received a gift certificate for one year's subscription to the publication of this group. Attached to it was the reprint, "Shall It Be Law or Tyranny?" by me. Stamped on the reverse side of the last page were the name and address of the captioned organization. The Bureau literature with their stamp on it accompanying their material gave the impression the FBI approved or recommended this group.

You should direct a mature Agent to contact a responsible official in this group and diplomatically request them to cease and desist stamping the name and address of their organization on Bureau literature sent along as a companion to their material. It should be explained that this tends to lend the Bureau's name to their efforts which is contrary to Bureau policy no matter how well intended their activities are. Care should be taken not to offend this group at this time.

Submit results of this contact under the above caption to reach the Bureau no later than 12-31-62.

Dear [redacted]

Your letter of December 14, 1962, with enclosures, has been received, and the thought prompting you to write is appreciated.

With respect to your inquiry regarding the Florida Coalition of Patriotic Societies, the FBI is strictly an investigative agency of the Federal Government and neither makes evaluations nor draws conclusions as to the character or integrity of any organization, publication or individual. In addition, information contained in our files must be maintained as confidential in accordance with regulations of the Department of Justice. I regret I am unable to help you and hope you will not infer either that we do or do not have data in our files relating to this organization. In view of this policy, I am sure you will understand why I am unable to comment along the lines suggested by you.

You are quite correct, however, in your assumption that articles prepared by the FBI, such as "Shall It Be Law or Tyranny?", are for the purpose of conveying a public message and not to further the cause of any organization.

Enclosed is the material forwarded by you.

Sincerely yours,

By letter dated December 14, 1962, [redacted] Princeton, Illinois, forwarded a copy of the December 1, 1962, issue Number 89, of the Bulletin of the "Florida Coalition of Patriotic Societies" attached to a reprint of "Shall it be Law or Tyranny" with the stamp of the Florida Coalition of Patriotic Societies placed on back of the last page. [redacted] associated the reprint of the Director's statement directly with the veracity of some of the statements appearing in the publication of the captioned organization which degraded the President and his Administration.

Bufile 62-106947 reflects the Bureau has sent reprint material to this organization during the past 2 years. On 11-16-60, the SAC, Tampa, advised that this group was well known to the Bureau and arranged lectures in an effort to acquaint the public with the activities of various subversive organizations. Many close friends of the Bureau are affiliated with this group. By letter dated 12-12-61, the Bureau advised the SAC, Jacksonville, that we have never investigated this group. At its convention in West Palm Beach, Florida, on 4-29-61 the organization passed a resolution commending the Bureau and the Director, the House Committee on Un-American Activities and others. * Also see Bufile 157-418-4

OBSERVATION:

Although friends of the Bureau are associated with this group and the group is well intended, placing their stamp on Bureau literature and sending it along with their material degrading the President and the present Administration is a source of possible embarrassment to the Bureau.

RECOMMENDATIONS:

1. That the attached letter be forwarded to correspondent.

She is certain none of the present officers has issued such instructions.

[redacted] said the Bureau literature and articles by the Director are among the best they have had, and are the most popular with visitors to the Coalition offices. She said the stamping of same with the name of the Coalition was intended merely to identify that organization as the distributor, and it had never occurred to her that anyone might interpret it any other way. She said she understands the Bureau's policy, and in the future will not stamp Bureau material which she disseminates. She said she did not think it necessary that an Agent contact an officer of the Coalition in this matter, as she is capable of handling same. However, if the Bureau desired to contact one of the officers, [redacted] would be the proper person to see.

In view of the foregoing, no lead is being set out to contact [redacted] but Miami and Jacksonville are each furnished one copy of this airtel for information.

Hargis Launches Tirade Against Paper, Reporter

I've Been Mad All Day - Crusader

By EDITH HAYNIE
Palm Beach Post Staff

Christian Crusader Billy James Hargis whipped a crowd of about 1,000 into repeated applause Friday night with a finger-jabbing, rip-roaring attack on this reporter, and newspapers in general.

Supposedly appearing to speak on homefront communism, Hargis spent 35 minutes of his hour in a vocal assault on "your local newspaper and that woman sitting here in the front row."

"We never get fair reporting in newspapers," Hargis shouted. "But I have never heard a more loaded question than she asked at our press conference this morning, and then misquoted me."

HAYNIE

Hargis failed to explain the "misquote," and a few minutes later roared: "I haven't read her story in this afternoon's paper, and I don't intend to. I wouldn't spend the nickel to buy it."

"They never tell what we say," he hollered, waving his arms and pounding the rostrum. "They tell how we take up donations, and sell books, and pass the ice-cream buckets for money . . . but they don't tell what we say."

"I'm sick and tired of this lopsided, smearing, biased, liberal reporting," he yelled, wiping his sweating face with a handkerchief.

The 250-pound Christian Crusader pointed his finger at this reporter to emphasize each word, and roared:

"I've been mad all day, and just waiting for this night. What she did is just like waving a red flag before a bull."

The crowd applauded and several yelled: "That's telling her, Billy!"

"This area is just like the rest of the country. . . filled with liberal newspapers who won't tell you what we say. Well, we're gonna ~~start our own newspaper~~, I can tell you that."

"And for your information, lady, every word I'm saying is being recorded on a tape recorder for a permanent record."

It was . . . until the last 35 minutes of Hargis' speech when the tape recorder was cut off for the financial appeal to the audience.

Persons attending the rally paid a dollar admission to get in; bought books and pamphlets, and then wrote checks on blanks provided by the Hargis group, put them in envelopes, and dropped them in what the Christian Crusader called "ice cream buckets."

At one point in Hargis' speech, the crowd gave him a standing ovation. This reporter was taking notes and did not rise, and several voices in the middle rows yelled:

"What's the matter with that d. . . reporter? Can't she stand up?"

Hargis said the only publication "worth reading in this country is the Congressional Record. It will do you more good than all the newspapers and magazines put together."

GEN. WALKER WARNS COUNTRY HEADED FOR WELFARE STATE

As Billie James Hargis Relaxes After Speech

Staff Photo by Lou Payne

Walker, billed as chief speaker, of the night, sat on the platform with a half smile on his face while Hargis spoke, and while the hefty speaker joked with the crowd as the money collection was taking place.

Walker finally took the speakers stand at 9:17, when Hargis said "Now we'll sit right down for Gen. Walker's little speech."

The ex-Army officer told the crowd that "one newspaper, like hers, I'm sure, said I am attacking the military forces of this country."

He did not identify the paper or refer to it further in his speech to the crowd at the Hotel George Washington.

The Hargis attack on this reporter was triggered by a morning press conference that came to an abrupt end, almost before it began, with the following question:

"Gen. Walker, you led federal troops in the Little Rock, Ark., integration crisis, you were charged with leading student riots at the University of Mississippi. There are reports you will go to Alabama when integration is tried there. If so, which side will you be on this time?"

Gen. Walker's answer: "I went to Mississippi because of Cuba, and I came to Florida because of Cuba. If I go to Alabama, it will be because of Cuba, and I hope you print that in your paper."

Gen. Walker, in his speech, said the U. S. is headed for a welfare state and for state control.

When the federal government begins attacking state sovereignty, liquidation of government by the people is underway, he said.

"We are trapped in a two party system that does not truly represent us," Walker added.

Hargis and Walker, sponsored by the Christian Crusade and Friends of Walker, appeared in West Palm Beach last night in the second show of a 17-state tour aimed at national and international communism.

No accounting of the money taken in at last night's rally was announced. Hargis said anybody could get an audit of the Christian Crusade financial structure by writing and asking for it.

At a late hour Gen. Walker was still speaking, and The Palm Beach Post deadline cut off any further coverage of his talk.

[redacted] A source at West Palm Beach, Florida; advised on
March 4, 1963, that the above-captioned organization [redacted]

[redacted] sponsored a joint speech at the George Washington Hotel, West Palm Beach, Florida, by Dr. BILLY JAMES HARGIS and General EDWIN A. WALKER on March 1, 1963. The appearance of HARGIS and WALKER was in turn under the sponsorship of the Christian Crusade, Tulsa, Oklahoma, who are touring several states in a project known as "Operation Midnight Ride."

Dr. HARGIS spoke initially to the group of approximately one thousand persons, outlining the tour which will touch about thirty cities; purpose of it is to awaken people to the Communist threat, and the present administration's lax attitude. HARGIS attacked a local reporter and was very critical of the Liberal Press for omitting truths stating he wanted fair presentation by news media and that the Conservatives should press for States Rights and a fair press. The public should listen to [redacted] FULTON LEWIS, JR., and the John Birch Society, all of whom are for States Rights, and religious freedoms. He stated America's only hope for the future is militant action in getting rid of Communism in Cuba. HARGIS made reference to a recent speech by JOHN EDGAR HOOVER concerning the internal strength of the Communist Party, stated Communism is not interested in Negroes and that the Government should outlaw the Communist Party, treat them as traitors, ship them all out of the country. He mentioned that the Supreme Court's action has destroyed the Smith Act which is a law and that the Attorney General ROBERT KENNEDY has not prosecuted any Communist because it would be too difficult and he should, therefore, resign. HARGIS pointed out a principal objective of the Communist Party is to abolish the House Committee on Un-American Activities and brought out a vote in Congress this past week as illustration.

RE: THE FLORIDA COALITION
OF PATRIOTIC SOCIETIES
WEST PALM BEACH, FLORIDA

HARGIS recommended that to become better informed, the public should get on mailing lists of the Christian Crusade, the Florida Coalition of Patriotic Societies, the Daily Congressional Record, write to their Congressmen, get into precinct politics and vote.

General WALKER spoke second and attempted to justify his attempt to politically indoctrinate his troops in Europe and to keep from being suppressed, he resigned his \$17,000 yearly retirement to champion the cause of Americanism. He stated the military is not informed on the Cuban situation and that the members of Congress are not representing the people of this country. WALKER claimed that the United States Military are being subverted to United Nations policies and that control of the United States Military is being integrated with the UN Forces. WALKER stated that the Supreme Court ruling on teaching of religion in the public schools is a UN policy for One Worldism and Godless. He added that the United States soldiers overseas are better representatives than any other Governmental Agency, specifically the State Department and Foreign Service. WALKER claimed that the Peace Corp are being trained by Communists within our own country, that we are losing the war in Viet Nam with casualties being kept from the public and that our Government is turning Socialistic. WALKER stated that the New Frontier strangles the military, controls the military politically, that the UN is a Communist Front and desires that the United States military be placed under UN control.

General WALKER mentioned briefly the Oxford, Mississippi situation and that he went there only as an observer and did not agitate. He remarked that if the Government had any such evidence of his actions, BOBBY KENNEDY would have let him rot in jail. WALKER stated that the United States went into Mississippi to suppress States Rights and not because of a Negro situation and that the people will rally around to his way of thinking comes the next election and that he was a political prisoner of the United States Government.

Israel fought to win

WHY DON'T WE?

Let's take a look at the recent war between Israel and the Arab States.

This conflict was planned by Russia. She supplied the equipment, ammunition and the technical advice to the Arabs in the mistaken belief that they would quickly overrun Israel and that Russia would dominate the middle East. Her plans miscalculated. She lost the war all due to the courage, the planning and the efficiency of the army of Israel. What happened in that war could be a great benefit and a lesson to the American government on how to fight a war.

Just compare how we are conducting the war in Vietnam and how Israel conducted the war against the Arab States. Israel is a small country.

NOTICE TO THE PUBLIC

If you agree with this letter write to the President and urge him to do the things brought out in this letter.

The Florida Commission on the Middle East needs your support. Please help expose communism in the Middle East. Write to the Commission, Tallahassee, Florida 32309.

[Redacted]

[Redacted]

Dear [Redacted]

I have received the letter of July 20th, with enclosure, signed by you and your husband. I want to thank you for your prayers and your expression of confidence in my work and that of the FBI.

With respect to [Redacted] allegations against this Bureau and me, I can assure you his charges are absolutely without foundation. He was an FBI Agent for less than ten months, his knowledge of this Bureau was necessarily restricted, and his book is a fanciful narrative which is filled with fictional and erroneous material. It is interesting to note that in his letter of resignation he stated: "I would be amiss if I did not express my appreciation for the valuable training, experience, and leadership which has been afforded me under your direction." He also said: "Should any national emergency occur and you feel I can again be of service to the Bureau, I would consider it an honor to return."

It is a pleasure to know of your interest in my book, "Masters of Deceit." You may also wish to read another of my books, "A Study of Communism." It is a comprehensive study of the development and expansion of communism throughout the world. They may be available at your local library.

Sincerely yours,

J. Edgar Hoover

Honorable J. Edgar Hoover
 Director

 Washington, D. C.

Dear Mr. Hoover:

We are enclosing a copy of an article written as an open letter to President. It voices the questions so many are asking these days.

God-fearing and God-honoring people in our nation appreciate your Christian influence and are praying for you. We are disturbed when we hear of someone like the man who was on Joe Pyne program try to discredit your name. However, it is so easy to see through the communist line, yet their deceitful ways seem very effective now after it seems many years of slowly working in so many segments of our society and educational fields. You, no doubt, have been aware for a long time of their tactics but now all of us are feeling the effects.

We heard a minister yesterday refer to your book "Masters of Deceit" which reminded us that we just must obtain a copy to read and circulate.

A sad fact is that this ecumenical movement which pretends to speak for Christians is either full of communists or communist sympathizers--just the place where deceit is most powerful. Thankful there are many born-again Christians who voice strong protests and who are praying and working to keep our beloved United States free.

May God spare your life and give you grace and strength needed for such a great task as you have, we pray.

How many parents of school age children and how many business men and women can remember what they were taught as to why the United States of America is the great country that it is today?

I assure you that when this country was founded it was not founded by co-existing with England, France, Greece, Turkey, Italy or any other country. It was founded on independence, on freedom of choice, on freedom of religion, on freedom of the press, on freedom of assembly and no nation, could tell us as a nation or individual what we had to do as long as what we did was not harmful to another.

Do you not wonder what has happened to our country to put it in the state of turmoil, tenseness and uncertainty that we are in today?

It has not happened through pressure from outside, it has happened from a philosophy within.

I am going to quote from a reprint by ~~Paul Harvey~~, News Analyst, American Broadcasting Network, Chicago, Illinois, entitled ~~UNESCO - Communism's Trap for our Youth:~~

THE CASE FOR WORLD GOVERNMENT

"When your child comes home from school parroting some phrase about the 'world society of the future-' are you going to tell him it's wrong for him to 'love his neighbor'?"

"When he comes home talking of world brotherhood, are you going to contradict the Christmas message of peace on earth and tell him all men are NOT brothers?"

"Now wait a minute.

"When your child goes from house-to-house for UNICEF, collecting coins for under-privileged children overseas, are you prepared to tell him he should not be charitable to those who have less?"

"When his elementary school textbooks indoctrinate him with the philosophy of world government are you prepared to insist that world war is preferable?"

"Are you against World Government just because the American Legion is against it?"

"I have been wrestling with these questions and seeking answers for several weeks.

"I told you there was evidence that UNESCO was brainwashing patriotism out of our youngsters and substituting the United Nations for God.

"I said if I found fire where I'd smelled smoke we'd go into it further. Well, I have gone into it further. I have burned a lot of late lights digesting and analyzing all the evidence, pro and con, concerning UNESCO, and I have reached a conclusion which I want to discuss with you, but you are going to have to wade with me through some of the preliminary evidence.

"UNESCO is the United Nations' Educational, Scientific and Cultural organization with thousands of publications too vast to enumerate.

"UNESCO booklets are distributed through the National Education and the PTA to teachers and students.

"UNESCO literature is issued through YMCA groups and churches, radio and TV programs, newspapers, magazines, civic groups, government agencies, but mostly directly and indirectly, it's philosophy of one-world-government is aimed at the classroom.

"Twelve persons connected with the administration of UNESCO have been identified in sworn testimony before congressional committees as COMMUNISTS.

"Seven have been connected with SOVIET ESPIONAGE.

"Six others refused to appear before government loyalty boards.

"But now we are not challenging the loyalty or the motives of this organization. We are seeking to determine whether, whatever their intentions, a whole generation of young Americans is getting brainwashed for their own good or somebody else's.

"Sometimes the defenders of the citadel, when they get desperate, become as vicious as the attackers.

"The critics of UNESCO have sometimes let themselves get so worked up that they start flailing their arms, swinging in all directions, becoming at once ineffectual and slightly ludicrous.

"Let us, instead, suppose that the world government idea is a good one.

"Let us admit that all God's children would be better off living together than fighting and that the next generation of children all over the world should be reared to this understanding.

"That national boundaries are not something to fight over and that a united United Nations is the way to discuss and dissolve our disagreements.

"That it is unnecessary to spill any more blood defending the American Flag if we all pledge allegiance to the UN flag.

"That is what the UNESCO disciples believe.

"They are not all COMMUNISTS. They are decent citizens who are convinced that this is the better way and that is why they are indoctrinating your child today through UNESCO literature and UNESCO influence in his elementary school classroom.

"But this is THE REST OF THE STORY.

"Russia is not thus indoctrinating Russian children.

"This is the larger issue. This is the point well-meaning veterans' organizations and other have missed. While we are allowing our youngsters thus to have their American allegiance brainwashed away so they not consider Americanism worth fighting for anymore, the Russians in their schools (and I wouldn't say this if I couldn't document it with current evidence) continue to preach and teach their elementary school children that COMMUNISM is the only efficient government.

"That God does not exist.

"That Russia will one day rule the world.

"Now wait a minute!

"I'm talking now to the mostly good American parents who have been convinced that UNESCO was the proper way to prepare the next generation of world citizens to live together.

Don't you see what's happening?

"Through UNESCO - American school children are being influenced away from their national allegiance.

"American school children are being indoctrinated with world government ideals while the Russians **prepare their children to** run that world government!

"They are softening the patriotism of our next generation; while hardening their own.

"The end result of this lopsided indoctrination is too obvious to require elaboration.

"Ex-Senator William Benton, speaking to UNESCO, said, 'We are at the beginning of a long process of breaking down the walls of our national sovereignty. In this UNESCO can be, and indeed must be, the pioneer.'

"But Red Poland has pulled out of UNESCO. . . .

"And Red Hungary . . .

"And Red Czechoslovakia . . .

"They will not use this 'break down the walls' and love everybody stuff in their schools.

"They will love COMMUNISM and teach COMMUNISM and only we, United States of Americans will dilute our patriotism until the American flag is a faded rag not worth fighting for.

"You may have difficulty getting your school administrators to admit that they are using UNESCO materials even if they are. The best test is to learn directly from the students if they are being taught that 'collectivism is inevitable,' that 'polygamy is acceptable,' that 'private property has no place in the new order,' that 'we are all/citizens of the world with an allegiance to all nations and to no one nations'.

"School teachers are vulnerable.

"The President of the National Education Association - Dr. Lyman Ginger, says Russia 'has an excellent school system'. The basis for his judgment is that the Russian teacher is paid 1 1/2 times as much as the Russian skilled worker. Of course that fact loses its luster when you realize that the Russian factory workers have to work 80 hours and 49 minutes to buy one pair of shoes.

"Yet many American teachers have felt that in adopting the 'international' outlook they were being 'modern' and imitating what their NEA President calls the Soviet Union's 'excellent school system.' Though Russia's schools are not teaching 'internationalism:

"Communism over God! Russia over all!

"Ask Mrs. Eleanor Roosevelt about her recent visit to Russia.

"Are Soviet schools incorporating the UNESCO program?

"Certainly not.

"Are Russian schools teaching that one nation is just like any other nation and that we must all live together under a United Nations?

"Certainly not.

"Our UNESCO literature is indoctrinating American children with the idea that we should have an 'International Anthem.'

"Would Russian schools thus teach Russian children?

"Certainly not.

"Mrs. Roosevelt found the Russians demanding an indelible allegiance to their own country. Seeking in every way to strengthen their own country. Teaching their children, by the Pavlovian reflex method, precisely and only what the Soviet state wants them to believe.

"As Pavlov taught his conditioned dogs, they teach their children to hate the United States.

"Is there nothing to encourage international peace in their curriculum?

"Nothing.

"The classroom is a nationalistic weapon of the Kremlin.

"The UNESCO Seminar -- which guides American teachers -- states, 'One of the chief aims of education everywhere is to develop those qualities of citizenship which provide the foundation upon which international government must be based.'

"No, not 'everywhere.'

"So before we re-write our textbooks, as the UNESCO Seminar recommends, 'on a view to improving them as aids to international understanding, 'let's be sure everybody else follows suit or the implication is obvious. We grow nationally soft while they grow hard and strong. Only a Russian citizen or a Soviet subversive would want that!

"Now please don't come back at me with the many old pro-and-con arguments that have been weighed by the American Legion and the VFW and countless civic and discussion groups for years. I have, I believe, seen them all and I am not concerned with more hash from these leftovers.

"We are not debating whether UNESCO's philosophy is good or evil.

"We are not opposing the United Nations.

"We are not denouncing International Cooperation.

"We are not challenging the rightness of the wrongness or editing textbooks to put the UN in and re-writing history to take the US out and coaching our teachers to erase national boundaries from the minds of the next generation.

"I only object to this one fact!

"It is not who is right that is of greatest importance, but what is right!

"That while we are thus conditioning our children to salute a mongrel flag Russia is conditioning her children to salute only the Hammer and Sickle.

"Suppose you and I were trainers, training professional fighters and you taught yours to fight and I taught mine to dance the minuet, we'll have a real happy party. But Russia is training fighters!

"Now, you say, what can you do?

"If you are concerned with preserving patriotism in the next generation of Americans then the youngster first must hear it at home.

"Dad's constant complaining about unfair taxes and 'crooks in Washington' does little to instill faith and confidence in our government. It must be counter-balanced with a respect for the strengths of our nation, rather than a constant exaggerated emphasis on its weaknesses.

"After the youngster has heard a little star-spangled conversation around the house, it's time for the parents to attend PTA meetings and to take an active, intense, personal interest in what the school is teaching ... and what it is not teaching.

"If you don't ... others will.

"If you figure you can stay home and play cards on PTA night and 'let George do it,' you'd better expect the worst because George doesn't always agree with you.

"The FBI has established that the Communists in the United States, under orders from Moscow, are making a concerted effort to work through respectable forums including PTA groups. If you can't take an interest in directing your child's education, they will!

"They are! Right now!

"Much has been said about what Americans stand for. Equally important are the things Americans won't stand for.

"And for goodness sake, understand this ...

"Everybody who subscribes to the UNESCO philosophy of education is not a Communist. He may unwittingly be their tool, but a host of them are decent, honorable, entirely sincere parents like yourself who believe this is the best way to prepare their children for a future day when they must live with others in peace or perish in an atomic ash pile.

"Don't try to shout them down, but try patiently to help them understand that Russia, as usual, is not keeping her part of this cooperative bargain.

"Russia permits no UNESCO indoctrination of her youngsters.

"Russia teaches 'Communism without compromise.' and unless we prepare young Americans to believe in freedom without compromise, so that they will keep it strong and defend it against all enemies (foreign and domestic), we are dooming tomorrow's Americans to the fate of today's Hungarians.

"But if we can revive in America's youth some of the faith of our fathers then this will again become the land of the free and the home of the brave and strong enough to keep our enemies at arms length which is quite enough to hope for in our time.

Now you have it! That is what is happening in the public schools in the United States.

Our christian churches in the United States for some strange reason are propounding the same philosophy, this quote is from the Southern Conservative, Flatiron Building, Fort Worth, Texas.

"POWERFUL GROUP DEALS A KNOCK-OUT BLOW TO THE CAUSE OF CHRISTIANITY".

"Those who have sworn to destroy Christianity in the United States, an avowed Christian nation, have made such alarming headway that it was decided to offer an amendment to the Constitution re-affirming that ours is a Christian nation.

"This amendment which is now before Congress reads: 'This nation devoutly recognizes the authority and law of Jesus Christ, Saviour and Ruler of nations, through whom are bestowed the blessings of almighty God.'

"In view of the purpose and the wording of the proposed amendment, it was not expected that it would meet with any appreciable opposition.

"But there was opposition - and from a very powerful source.

"This opposition did not come from the Communist Party of the United States nor from Soviet agents who work feverishly to infiltrate all churches and religious activities in this country.

"It did not come from any organization or group of atheists who would be expected to protest the adoption of such an amendment.

"The opposition came from the National Council of Churches of Christ in the U. S. A.

"On June 5, the Associated Press carried a story with a Seattle date-line stating that the General Board of the National Council of Churches of Christ meeting in that city went on record, 59 to 1, against this amendment which would proclaim the United States as a Christian Nation. The Board was quoted in the story as basing its opposition on the grounds that such a step would 'embarrass the relations of American churches and the nation with the world majority of non-Christians.'

"If we are not mistaken, the Protestant churches of the United States have spent millions of dollars in the past century sending missionaries abroad to convert 'non-Christians' to Christianity. Now the self-proclaimed representative of thirty-five to forty million American Protestants, the National Council of Churches, repudiates and discredits the work of all the good men and women who have spent their lives in ~~heathen countries trying to convert natives to Christianity, by bowing to the 'world majority of non-Christians' and refusing to admit that we~~ are a Christian people.

"What are the heathens in foreign lands who have been converted to Christianity to think about such action? That they have been gypped and that Christianity is a fraud if its own leaders are ashamed to confess their belief in it?

"The Council's official action at Seattle is, we believe, the first time it has come out flat-footed against Christianity and in favor of Communism which of course also opposes the adoption of the amendment and no decent American can contemplate this action on the part of the Council without trembling in his boots over the future of Christianity in the United States.

"If the Council's claim as to membership is accurate and if the Council speaks for its members, it means that between thirty-five and forty million good Protestants in the United States refuse to admit they are Christians for fear of embarrassing 'non-Christians.'

"If this does not cause real bonafide Christians to demand that their denomination withdraw from the National Council of Churches, it means that the fight to destroy Christianity in the United States had largely been won."

"Presbyterians Leave Religious Matters out of Assembly Talks

"How the tenets of Christian faith have been destroyed in some Protestant churches of this country by the forces of International Communism, both at home and abroad, was forcefully illustrated at the recent Presbyterian Assembly held in Indianapolis.

"The candidate for the Presidency of the denomination's theological seminary at San Francisco was openly accused by a small segment of those in attendance of having publicly expressed disbelief in the Virgin Birth of Christ. The minister in question, Rev. Theodore A. Gill of California, did not deny the charge. Editorials were read which he had written when he was associate editor of the Christian Century, a publication frequently referred to as the theological edition of the Daily Worker, which confirmed the charges made against the Rev. Mr. Gill.

"The matter was laughed off by the majority in attendance and Rev. Gill was elected.

"Anti-Christian forces in this country have repeatedly boasted that they are breaking down such 'superstitions' as this and that they furnish much of the literature used in study courses of Protestant Sunday Schools and Churches.

"Some of the extremely peculiar subjects which were discussed at Indianapolis and which, incidentally, did not include any matters touching on religion, were Birth Control, Sex, NAACP, Federal grants to education, right to work laws, abolishment of capital punishment. Federal housing, and the admission of Communist China into the United Nations."

QUOTING FROM J. EDGAR HOOVER'S TALK OF AUGUST 1956.

Mr. Hoover had this to say:

"It is to me appalling that so few among all the citizens who daily enjoy the God-given blessings of being free Americans are sufficiently interested in their future, and that of their children, to acquaint themselves fully with the facts of communism. Too many people condemn the word yet have not the vaguest notion of the evil which the word encompasses.

"A handful of inspired men gave us our freedom. They cannot preserve it for us. That responsibility rests with the individual American. And we must now face the harsh truth that the objectives of communism are being steadily advanced because many of us do not readily recognize the means used to advance them. The communist, meanwhile, does not allow himself the luxury of inertia. He is intensely active. Because of him, the menace of communism in this country will remain a menace until the American people make themselves aware of the techniques of communism. No one who truly understands what it really is can be taken in by it. Yet the individual is handicapped by coming face to face with a conspiracy so monstrous he cannot believe it exists. The American mind

simply has not come to a realization of the evil which has been introduced into our midst. It rejects even the assumption that human creatures could espouse a philosophy which must ultimately destroy all that is good and decent.

"The straightforward American cannot conceive of another citizen enlisting in the espionage service of a foreign country, or deliberately propagating discontent, hatred and disunity at the orders of an alien group. He cannot believe that any American would serve a philosophy which moves inexorably toward the goal of reducing the status of the individual to that of slave.

"Our frontier forefathers faced great dangers. They encountered heat and storm and starvation. Again and again they joined in battle against a hostile foe. But our forefathers were very much aware of one thing. That was the nature of the enemy they faced. Insofar as possible, they prepared themselves for eventualities. When the campfires flickered low on the long trek west, a watch was set. Those men of the frontier knew that awareness of danger is the first requisite if one is to combat that danger with any degree of effectiveness. Until the American citizen learns for himself the nature of the present menace, communism will continue to be a deadly danger.

"The conscientious citizen asks, 'How can one be sure what the truth is? How can it be winnowed out of the welter of propaganda which the communists and their apologists spew forth?'

"All that I can say is - and I repeat what I have said many times - the American citizen must hew to a line comprised of a little skepticism, a lot of knowledge, Monumental faith, and an everlasting desire to get the facts. He must ascertain for himself what the facts are. He must accept nothing less than the facts - neither the majority version nor the minority version. He must view all the evidence until the face of truth is plain.

"Where shall he begin the search for facts? Much basic knowledge can be gained from the lives of those who have experienced the gulf between the promise of communism and the evil reality.

"Faith can come only from spiritual sources. We need to drink again at the wells from which the Founding Fathers drank. We need to return to the fundamentals which our fathers knew. We need to steep ourselves in the idealism from whence sprang the seeds of our constitutional form of government - to read again the immortal documents, the books and memoirs of the men whose faith in God and in posterity gave us our heritage of freedom. Our youth must understand that faith is essential to the continuance of freedom.

"The battle we are presently engaged in is a struggle between the ~~spiritual and the material~~. ~~The proponents of atheistic materialism~~ are determined to wipe the Judaic-Christian principles of morality, on which Western civilization is founded, from the face of the earth. The strength we bring to this struggle is dependent upon one thing: our individual understanding of the enemy we face.

"If we allow ourselves to be duped by communist cunning and the 'new look' - we shall, with a casualness that is indecent, toss into discard our immortal heritage of freedom."

This is a reprint from (Economic Council Letter 453 of April 15, 1959.)

"THE JUNIOR LEAGUE"

"The American business community is becoming more and more aware of the

pressures, controls, and red-tape from swollen bureaucratic government. Important business groups like the National Association of Manufacturers, and the U. S. Chamber of Commerce, as well as many individual companies, are getting into the field of practical political action by training men and women to vote - and VOTE AMERICAN. This is just what the Economic Council has been advocating for years.

"In addition, we suggest another project which needs immediate attention; one which, if carried out, will accomplish wonders at the local and national levels. It will contribute greatly to the fight to save America. Your advice and counsel are needed by YOUR OWN FAMILY.

"Recently, the Junior League, in the Chicago area, announced a new series of radio programs called 'Search for Peace.' We wonder what kind of 'peace' is meant when we note the background and performance of their speakers. You be the judge! Among them we find Pearl Buck, Norman Cousins, Clifford Case (N.J.), Harold Stassen, Lester Pearson, Drew Pearson, and Bertrand Russell.

"Such programs will do much to undermine the education planned by business groups, because the effect of these fuzzy thinkers, with the wrong answers, will further confuse and complicate the problems to be solved.

Apparently, much of the program planning by the Junior League, League of Women Voters, and the American Association of University Women, is based on the left-wing socialist philosophy of government, for their speakers are predominantly of that ilk. The above list is typical.

"Members of these lively organizations are usually fine, bright, active Americans with time and energy to devote to worthy and necessary causes. They are YOUR wives and daughters. If you will show them the paradox in promoting programs which, in effect, nullify our desperate efforts to save free America and their own liberties, surely they will cooperate. We suggest you urge them to reorient their programs with sound pro-American principles and practices, bringing speakers and study material to the community which will safeguard our country.

"When all indications and testimony prove that 'it is five minutes until midnight' for your business and your nation, surely your own families should not be working in opposite directions. It's YOUR MOVE! Won't you speak to your family?"

This is from the Christian Crusade.

"THE NATIONAL CHRISTIAN AMERICANISM MONTHLY "

"COMMUNIST SLAVES AND MODERNIST CHURCHMEN "

"As we start a new year we find pro-communist influences increasing in ghgh church circles of our nation. This influence was exhibited to a frightening extent in a resolution by the World Order Study Conference of the National Council of Churches on November 21, 1958.

"This resolution called for recognition of the murdering Red Chinese regime of our government. These modernist churchmen even used the communist conspiracy's whitewash term in referring to Red China by calling it "the Peoples Republic of China." They said that by excluding this murderous regime which they called 'the effective government on the mainland of China ' we would help to 'preserve a false image of the United States . . . in the minds of the Chinese people.' This resolution, which was accepted unanimously by 600 delegates in a voice vote advised Americans to 'avoid' . . .

general hostility' to the communists and to 'cease the practice of continual moral lectures to them by our leaders.' In other words, leave the helpless enslaved victims of communism as they are and do not say anything to embarrass their satanic slavemasters.

"The millions who have been murdered by these cruel Chinese Communists are not considered in the National Council's pro-Red China resolution. The millions condemned to a slow, suffering death in Red China's prison camps are ignored by these churchmen. There is no pity or sympathy shown for Americans who are suffering under the Red Chinese tyrants. No respect is shown for the important facts brought back from Red China by those who have suffered under it, including our American soldiers. No sympathy is indicated for those Chinese outside of Red China who would like to see their homeland and loved ones freed from the chains and slavery of anti-Christ Communism. This resolution by the World Order Study Conference offers compassion and hope only for the cruel communist conspirators who inflict the tortures and suffering on the helpless Chinese people and other unfortunate victims trapped behind the bamboo curtain.

"The most disturbing and dishonest aspect of this resolution is the utterly false picture it presents of a representative Red Chinese government which is approved by the Chinese people - a 'Peoples Republic of China.' The churchmen speak of 'resumption of relationships between the peoples of China and of the United States.' Considering all the facts which have been published about Red China and international communism how can any American remain ignorant of the fact that no communist conspiracy government represents the people of the nation concerned and in dealing with communist leaders we are in no way dealing with the people of a nation or their legitimate, approved leaders. We are dealing with murdering criminals who rule by force, yet this National Council resolution presents the communist propaganda picture of a 'people's' government. Of course, the left-wing, modernist churchmen and other dupes promoting the Red China propaganda never even suggest a free, internationally supervised election on the mainland of China.

"Dr. Daniel A. Poling, editor of the Christian Herald said of this resolution, 'I believe that this action misrepresents my Protestant faith. With every influence that I have I repudiate it.' Dr. Norman Vincent Peale said: 'I am one minister who is completely opposed to recognition of Communist China and to the admission of that ruthlessly totalitarian government to the councils of nations.' Dr. Poling called it 'rank hypocrisy to say that recognition in this fashion of atheistic Communist China does not constitute approval.' He further called it 'a brutal betrayal of our Protestant brothers in China who have remained steadfast and also of millions of other enslaved Chinese.'

"Actions such as this resolution by the National Council's World Order Study Conference are made in the name of the members of churches affiliated with the National Council of Churches and these damaging pro-communist activities are financed primarily with the money of these church members. The destructive left-wing modernist church leaders who toot their horn for one communist objective after another could not continue operating if pocketbooks were to start walking out of their National Council denominations."

Now a reprint from CHRISTIAN ECONOMICS Voice of the Editor.

"A Tragic Blunder

"The Southern Presbyterian Journal, December 10, refers to the action of the Fifth World Order Study Conference sponsored by the National Council of Churches urging recognition of Red China and her admission to U. N. as a foul.

"One paragraph of the Journal's strong case reads as follows:

'That which is overlooked is that the overwhelming majority of the people in Russia and China found themselves saddled with a government, not of their own choosing, a government composed of evil men dedicated to a godless concept of men and nations, one in which every basic freedom is denied and the state becomes supreme.'

"Another point not mentioned by the Journal, is that the Communist tyrants of Moscow were, and are, able to maintain and extend their stranglehold on about one-third of the world's people only because of cooperation and help received from our own country.

"During the twenties, our country sent enormous quantities of food to Russia without which the regime most probably would have failed. We also sent an army of competent technicians with blueprints and materials to enable Communist Russia to industrialize. Lacking this aid communism might well have collapsed.

"In '33 when the Communist leaders of Russia were at their wit's end and Stalin on the point of resigning, their lives were saved by the prestige afforded them when the United States recognized their government after nearly fifteen years of non-recognition by four presidents and several secretaries of state. More technical aid and know-how was contributed all during the thirties.

"When Hitler attacked Russia in '41, both foul regimes might well have perished or at least have been so weakened as to be relatively harmless had we not extended to the Communist tyrants the greatest outpouring of moral, economic and military aid in the history of the world, excepting only help given to England and France.

"Again, had it not been for the communist-inspired policy of demanding unconditional surrender of the Germans, World War II would have ended long before the Russians reached the German border or even the Western part of Poland, and while they were still far from the other former free countries of Europe. In that case, the war would have come to an end with the Communists of Russia relatively harmless within their own borders. The deliberate and planned action of our government in promoting the Western advance of the Russian Communists gave the latter great power and prestige and enabled them to enslave the Baltic and Eastern European countries as well as to fasten their grip upon their own people.

"Our government deliberately backed the Communists in China and so brought about the conquest of 600 million people.

"At the behest of the U.N., the United States refused to win the war in Korea, thus advancing the communist cause all over Asia and leading directly to the loss of at least half of Indo-China and probably Indonesia with a great weakening of Western prestige in India, Malaya, Ceylon, Siam, Pakistan and the whole Arab World.

"The plain truth is that the Communists are now in position to threaten the life of the free world because of the help received

from the United States. To recognize the Communist regime in China and admit it to the U. N. would add enormous prestige to the communist cause and be another long step toward the extinction of freedom throughout the world.

"One of the saddest spectacles in human history is to see a very large section of the Christian church striving toward that terrifying objective. Most of these churchmen no doubt have noble motives but that will not mitigate the slavery and suffering which will bring upon the people of the Free World if they succeed in their campaign."

For those of you who have waded through this documented material, you no doubt, are **beginning** to wonder what you can do before it is too late.

You can certainly withdraw financial support from any organization espousing the communist cause.

You can perpetuate in office and elect to office those officials from the precinct level up who are dedicated Americans who believe in nationalism, and our free enterprise system of republican government.

You can take an active interest in your school and church and see to it that your children are taught that this nation - United States of American was founded and reached a pinnacle because it was founded on freedom of religion and states rights.

You can demand that any school official or teacher teaching otherwise be removed from their position without any delay.

The nations that have been subjected by Russian tyranny and communism should be encouraged to hold on and to hope for help from the United States - put yourself in the position of a native of a captive country when they pick up their newspaper and see our public officials arm and arm smiling and enjoying themselves with the butchers of Russia.

The following is a portion of a letter written by General Sumter L. Lowry of Tampa, Florida:

"I urge you to read this letter carefully and to give it top priority. It involves the freedom of your children, the survival of our nation and your life.

"When World War II ended in 1945 the Russian communist conspirators controlled one nation, the Soviet Union of Socialistic States, known then as Russia.

"Take a look at what Russia has done since 1945. The following countries have been completely over-run, captured and enslaved by the communist conspirators. They are now a part of the communist world state:

Estonia	Albania
Latvia	Red China
Lithuania	Mongolia
Poland	Tibet
East Germany	North Korea
Czechoslovakia	The Kuril Islands
Rumania	North Vietnam
Bulgaria	Iraq
Hungary	Indonesia
Yugoslavia	

"Russia intimidates the governments and controls the economy of

Norway	Finland	Denmark
Sweden		Iceland

"With Russia's recent capture of Iraq, she is in position to, and she soon will, move in on Jordan, Iran, Saudi Arabia, Syria and Egypt - and for the first time in history she has broken through to the Middle East.

"A large percentage of the population of France, Italy and many in England are communists and their governments are intimidated and influenced by Russia.

"The only four strong anti-communist countries left in Europe are:

Turkey	West Germany
Spain	Greece

"The entire continent of South America is a major target for communist attacks, and alarming gains are being made. Some countries, such as Venezuela, are completely controlled by them. All other South American nations have large numbers of communists who are active and aggressive. Their governments are becoming more hostile to the United States and friendly to communism.

"Mexico to the South of us has long been the breeding ground for communist conspirators, and has a well organized movement.

"The new Cuban government is strongly suspect of communist infiltration and domination.

"The great Continent of Africa is now the object of communist conspirators and is seething with unrest and ill-will towards the Free World.

"India, Burman, Thailand, Pakistan, Kashmir and other so-called neutral nations, in recent years have shown that they are pro-communist, either by design or intimidation.

"Japan and the Philippines are supposed to be our friends but in recent months they are showing signs of moving away from the United States.

"What is there left on the side of the United States? Just a few tired European nations and isolated allies scattered all over the world, such as:

Australia	Free China
New Zealand	Canada

"Every one of these free countries, including the United States, are under constant attack from the communist traitors and saboteurs within their borders.

"The record of voting in the United Nations on vital issues effecting the free world shows the number of nations voting with the United States to be smaller each year, while those voting with Russia show a corresponding increase. This is a very significant trend.

"Only a blind man could fail to see that the United States of America has lost ground continually since 1946, and that Russian communism is capturing the world. Unless the tide is reversed, our country will soon stand alone, surrounded by the brutal forces of communism ready to close in and give us the final death blow -- truly a frightening picture!

"Now the information that I give is not picked out of thin air. It is not my personal opinion, but cold facts, which can be substantiated by the most casual investigation.

"Let's see what the picture is in our own country;

"The communists are becoming more powerful, arrogant and aggressive every day.

"They occupy key spots in many of our labor unions - favorable court decisions making it almost impossible to touch them.

"Our public schools, from grade school to college, are busy teaching divided loyalty and watered-down patriotism -- a key objective in the communist conspiracy.

"A large segment of the editorial Press openly ridicules, belittles and smears any man who is a patriot and not ashamed of it.

"The clergy is full of men who blindly give their names to communist front organizations - for \$2.00 you can buy a published list of 3,520 of them.

"The entire nation is bitterly divided over integration - cleverly guided by the communist conspirators.

"Our weak Foreign Policy of 'PEACE AT ANY PRICE' has left our people dazed and confused.

"Our nation's finances are close to bankruptcy, largely due to foreign aid and our huge budget made necessary by Russia.

"But worst of all, our Supreme Court, the last stand of justice and protection of our rights, is giving aid and comfort to the enemy by its many decisions favorable to communists and traitors.

"After years of study of facts and events, I am absolutely sure that no force on earth can prevent the destruction of the United States by communism unless the PEOPLE OF OUR COUNTRY UNDERSTAND AND BECOME AROUSED to the mortal danger which threaten us.

"I am also sure there will be no atomic war between the United States and Russia. That is not necessary or in the master plan of communism. If the United States of America is captured by Russia, it will be done without her firing a shot - or losing a man. It will be accomplished by internal intrigue and conspiracy - done by traitors and fools aided and abetted by the huge mass of apathetic American citizens. The stage is being rapidly set within this country. The end is in sight! Unless we make the winning of this war with Russia the first duty of every American, within SIX YEARS, and not more than TEN YEARS, it will all be over, and our country will be through -- the sell-out will be complete.

"Now I do not say that all is lost, or that we should accept defeat as inevitable. The United States is the greatest country on earth. We can defeat Russia or any other nation, but we must go about the task and pursue it with the utmost courage and vigor.

"Suppose you were a stockholder in a business enterprise and the annual statement showed that the income, the assets and earnings of your company were going steadily down hill each year - if it was clear to you that your company was near bankruptcy - if your chief competitor, starting from a minor position was fast overtaking your company - if you saw this trend, you would be greatly concerned and you would take drastic, corrective measures.

"Always remember, when you play games with Russia and get beat, there is NO return engagement - if they conquer us, there will be NO foreign aid - there will be NO mercy -- you will get only death and destruction from a Godless enemy, whose leader is the Devil himself.

"Do not think this is something that cannot happen to you, because this is exactly what has happened to every country where the communists have moved in. It will surely happen to you unless you are willing, at this late date, to stand up and be counted.

"There are men in this State who understand the danger and are trying to fight back. There is an organization now created, known as the COALITION of PATRIOTIC SOCIETIES OF FLORIDA -- its headquarters are in Tampa, Florida.

"Its mission is to consolidate the efforts of ALL patriotic groups, organizations and individuals in Florida - to give them united leadership and direction. It exists for the SOLE and ONE purpose of arousing the people to the Russian threat, and to save the lives of our children and grandchildren.

"Considerable money has already been invested in this enterprise, but it CANNOT succeed unless the business men support it with their time and their money. You have much to lose in this struggle!

"I urge you to help raise funds to insure the continued functioning of the COALITION OF PATRIOTIC SOCIETIES IN FLORIDA --- Nothing can be more important! Your very life may depend upon it.

"IT IS BETTER TO INVEST SOME OF YOUR GRANDCHILDREN'S MONEY TO PRESERVE THEIR FREEDOM AND LIBERTY THAN TO PILE IT UP FOR THE RUSSIANS TO TAKE."

Following is a portion of a typical bulletin mailed over the signature of Claude D. Boring, Manager of the Florida Coalition of Patriotic Societies:

According to the news in the past few weeks conservatives are making small gains, but we still have a long way to go.

In Florida three key positions will determine if Florida is to follow the conservative or liberal policy. They are Governor, State Superintendent of Public Instruction, and Attorney General.

There must be no moderates or liberals in these three offices if Florida is to take its true place in the sun. They must be men of proven dedication to Free Enterprise, Republican system of Government, and States Rights. Men whose integrity and past record of dependability is unquestionable.

It is time NOW TODAY to get busy.

It would be wise to elect men and women from the precinct level up who have the same reputation.

Believe me, your future and future generations will be vitally effected by the intelligent work that you do politically from here on in.

Most sincerely,

RED CONTROLLED U. N. ARMIES TO PATROL WORLD?
SUCCESSFUL SKIRMISH

Protesting patriots have been able temporarily to preserve the Connally Amendment and have, for the moment, thus slowed the thrust by the MISTAKEN toward sacrificing the United States to a World Government. However, the Conspirators, the "globalonists", the fellow-travelers and the dupes are not so easily defeated.

THE ENEMY GOAL

Already there are other moves whose effects would lead to the achievement of the goal of selling out our country to a "UNIZED" WORLD GOVERNMENT. "The world government proposes a world congress where members are elected according to the population of the member nations. This means that Soviet Russia and Red China and their enslaved comrades will control that government." (See speech by Hon. Usher Burdick in Congressional Record, April 28, 1954.)

AN ENEMY THRUST COMING?

For example, there is the pending "Clark Concurrent Resolution 83" which piously speaks of preventing war by "strengthening the authority of the United Nations" and omits to mention the implied "weakening of the sovereignty of the United States".

ARE WE TO BE PUNISHED?

The Senate Foreign Relations Committee recently has been presented with a plan to broaden the scope of the UN World Court so that it will have branches throughout the world. Part of the plan provides for the trial of individual persons and private organizations that are charged with having broken the provisions of the UN Charter. But, according to no less an authority than Mr. Cleon Skousen, the UN Charter has the same basic pattern as the Soviet Constitution! Alger Hiss, Molotov and Vishinsky collaborated in writing that Charter.

HERE THEY COME

According to "The Miami News (March 15, 1960), "The United States called for an international police force within the United Nations framework to preserve world peace after arms and armies are slashed. The American proposal ... called for gradual scrapping of national armies and conventional weapons and eventually an end to military satellites and nuclear rockets."

A SOBER WARNING

Hon. Usher Burdick in his speech to Congress (April 28, 1954) said: Mr. Speaker, there can be no doubt that there now exists a widespread understanding and agreement made between the agents of this Government and the United Nations and the North Atlantic Treaty Organization to build a world government, and to make the United States a part of it, regardless of our Constitution, laws, and traditions. The agents representing the states may not be deliberately trying to do this treasonable work, but the best that can be said for them is that they are dupes. Some mighty important people who are United States citizens are not only going along with this scheme but are daily and hourly contributing all their efforts in that direction."

LAIID ON THE LINE

Former Congressman Burdick concludes: "After examining this record can anyone doubt that the United Nations was purposely set up to do to this country what could not be done by force of arms, but through the blandishments of communists, fellow travelers and dupes, get us to surrender our liberty without firing a shot?"

WHAT TO DO:

1. Get hold of the following material and use as basis for a study group:

- d. Miscellaneous pamphlets and leaflets.

*Note Items "b", "c" and "d" can be obtained from the National Defense Committee of DAR, 1776 D Street N. W., Washington, D. C.

2. Inform those about you concerning the facts about the UN.
3. Write yourself and get others to write your Senators and Congressmen the truth about the UN. Let them know how you feel.
4. Get the various organizations to which you belong to pass Resolutions and inform your newspaper, radio and representatives.
5. KEEP TALKING!

P.S. Write your congressmen to support H.R. 6150, a Bill to free farmers from Government control. This would help to lower your food bills, also. This is a FREEDOM bill: to free the farmers so that they can once again work their own farms as they see fit: and it is to free YOU and ME from higher taxes that now buys surplus crops, much of which is destroyed by decay or pests (one rat eats \$20 worth a year).
